HEADLINE

A Frontend Engineer with 3+ years of hands-on experience building responsive, elegant, scalable and reusable frontend interfaces.

SKILLS

JavaScript | TypeScript | React | Redux toolkit | Node | MongoDB | Express | Mongoose | NPM | Postman | NoSQL | SQL | jQuery | WordPress | RESTful API | Git | Github | Agile Methodologies | Webpack | TDD | Jest | Unit Testing | SASS | Bootstrap | CSS | Semantic HTML | Technical Writing

EXPERIENCE

Web/Front-End User Interface Developer — November 2018 – September 2022
Keystone Bank Limited

- Developed 18+ responsive internal portals with HTML, CSS and JavaScript, maintaining graphic standards and branding throughout;
- Created a reusable custom CSS library with SASS, for faster design of webpages in line with the Bank's standards and branding;
- Created documentation for internal portal use that prevented the need for a 2-week onboarding course.
- Worked with the Quality Assurance Team to get new pages/products tested, addressing any issues within 48 hours;
- Co-developed a portal for Enterprise Risk Management, highlighting the summary of credit requests, approved credits, applicable securities and status of perfection of the securities, which provided real time credit risk information to the Management/Board of the Bank;
- Functioned as the Operational Risk Officer, responded to 500+ service issues and requests in respect of the credit management portals in a timely manner;
